Brian Wood has been attending FPCH since birth and growing up, he regularly attended Sunday school, sang in several choirs, and was involved with the annual church musicals. While still a youth, he moved out of state with his family, but still kept his connection to FPCH by watching *Let God Love You* on TV for as long as it lasted, then on the radio after that, and finally by accessing the audio recordings of services posted on the FPCH web site.

Brian earned his B.S. in biology at Indiana University of Pennsylvania, where he was regularly involved with Campus Crusade for Christ. He later spent 6 years living in the Republic of Ireland while completing a veterinary degree at University College, Dublin. After that, Brian moved back to California first to the Imperial Valley, then to the LA area, upon which he immediately and enthusiastically became a member. Brian feels "God has an amazing, powerful presence at FPCH that I felt ever since a child, and I look forward with joy to serving God on the ONC and for whatever purpose God may bring to me in the future at FPCH and life in general."
